CSC/SDS 109: Communicating with Data

Tableau Tutorial

Step 1: Set Up Tableau

1. Sign into an existing Tableau.com account, or create a new account using your school-issued email
2. Once signed in, visit the Academic Quick Start page to download the latest versions of Tableau Desktop and Tableau Prep Builder
3. Activate with product key: **TCTJ-34B5-56F0-6DD3-6483**
4. Already have a copy of Tableau Desktop installed? Update the license key in the application: Help menu → Manage Product Keys

Having trouble? The Academic Quick Start page includes FAQs and help articles.

Step 2: Start Using Tableau

1. Navigate to the Tableau Learning page: https://www.tableau.com/learn/training
   Complete: Learn Tableau Desktop (8 videos)
2. Navigate to the Tableau Academic Programs Page: https://public.tableau.com/app/profile/tableau.on.campus/vizzes
   Practice is the best way to learn! Choose one of the starter workbooks (pick whatever is most interesting to you!) and build a dashboard to explore the data.
